

Application for International Relations (Outbound Exchange Program)

Dear Hiring Committee,

I am writing to express my sincere interest in the International Relations (Outbound Exchange Program) position at the Faculty of Medicine Siriraj Hospital, Mahidol University. With my background in Tourism and Service Industry Management and my current professional experience as a Research Project Coordinator at the Ministry of Tourism and Sports, I am eager to apply my coordination and administrative skills to support the faculty's student exchange initiatives.

In my current role, I lead the core coordination of national research projects. My responsibilities include managing complex timelines, synthesizing data, and handling official government correspondence. I am accustomed to working as a central liaison between various internal and external agencies, ensuring that all administrative, legal, and financial documentation is processed accurately and on time. I believe this experience has provided me with the organizational discipline and attention to detail necessary to manage outbound exchange programs, handle scholarship disbursements, and coordinate with international partner universities.

Furthermore, my education and previous experience in the service industry have equipped me with strong interpersonal skills and a service-oriented mindset. I am confident in my ability to provide guidance to medical students throughout their application process and to represent the faculty professionally when communicating with international institutions. I am also proficient in using digital tools to create promotional materials for the programs, ensuring that exchange opportunities are well-communicated to our students.

I am a highly motivated individual, committed to continuous professional growth. I have been actively enhancing my English proficiency through intensive courses and am fully prepared to meet the English testing requirements specified by the university. I am eager to bring my dedication and coordination experience to the Faculty of Medicine Siriraj Hospital.

I have attached my resume and relevant certificates for your review. Thank you for your time and for considering my application. I look forward to the possibility of discussing how I can contribute to your team.

Sincerely,

Yodsakorn Chantapaso
